Short Description

Nature's most nutritionally balanced single Super-food.

Description

The essential plant life depends on the flowering cycle for reproduction. During this peak cycle, incredibly high levels of plant nutrients (phyto-nutrients) are densely concentrated and prepared for life formation. These ever finding phyto-nutrients from hundreds of different plants sources are naturally occurring nutritional complexes of: vitamins Complex, Carotenoids, Phytosterols, Bioflavonoids, Naturally chelated minerals, Amino acids, Essential Fatty Acids, Enzymes and Coenzymes.
